

+ Thursday, April 30, 1891,

Got up at five o'clock, worked in the office till school time. They have been mailing the papers today & printing the string Light. I did not build a fire at the school house today. Davis & I sat in the window & played about all day. The teacher told me when I was sweeping the school house this evening that if we don't do some tomorrow that he would tend to us. I wrote off sample names this evening.

Friday May 1, 1891.

The first day of May was a lonely day. This was the last day Davis Hamlin expects to come this term. The boys carried the ladder from the cellar up in the girls entry & got on the school house. There were no girls there this afternoon but Emma Pugh. After recess we had some queer queries. Fred Arms was here for supper. We planted some potatoes after supper. John & I made a key to the foot ball. I lost the other key. I ran the office key in my hand this evening, made quite a sore.

Saturday May 2nd

I worked at correspondence this morning & posted the books. Enoch, Rhoda & the baby went to Kendall this morning to visit with Frank Schoolcraft over Sunday. I went to the train with them. I went over in John Wright's field & played ball a while this afternoon. We got the Gospel Sword today. Fisher has written a terrible piece against Enoch & Bro. Warner. Sid went to Bangor today, did not get home till 8 o'clock this evening. He bought me a shirt. Aline bought some arange today.
